SILVER-LEAD ORE

Strike Is Made Out in the Desert Country West of the Town.

SNOWFLAKE IN LITIGATION

SALT LAKE MEN IN A RICH GOLD-FIELD STRIKE.

A strike has been made out on th desert, one-half mile or so west of Mo desert, one-half mile or so west of Modena, on the Salt Lake route, that is attracting a great deal of attention in the southern country. Out on the road to Desert springs a mound stands up in the desert that was located by R. L. Nolf a year or two ago on account o an iron blow-out that he found there. The iron has proved to be the capping of a big ledge or deposit of silver-lead ore the extent and value of which is yet to be determined. All through the ledge matter, according

All through the ledge matter, according to Manager C. A. Short of the Jennie company, who came up from Gold Springs yesterday, are chunks and kidneys of ore that assay as high as 160 ounces of silver, with an average of fifteen per cent lead. This character of material has been encountered after sinking through the iron capping and the opinion prevails that, as greater depth is attained, the deposit will become better with the values more evenly distributed. "A discovery of this kind right out in the desert," said Mr. Short, "forces the conclusion that the mineral belts of that region are unusually strong and rich. The discovery is the wonder of the southern country, a country that is full of wonders and which is just beginning to attract the attention it deserves. The impression that the property mentioned is likely to make a big mine is becoming more and more pronounced. W. H. Bramel and other Salt Lakers, I understand, are interested in the proposition of Mr. Nolf."

WORK UNDER WAY AT YERINGTON-IRONSIDES

A letter from Manager Fred Flindt of the Yerington-Ironsides company's properties at Yerington, brings word to the local offices that the work of erecting buildings has commenced and that it will not be long till he has ample and first class quarters for a good crew of men. The weather is behaving better than it has done for months and everybody is expecting the return of real genuine spring during the month.

In his letter Mr. Flindt states that many new faces are appearing in the district all the time and that during the past few days three or four good deals for properties have been consummated. What they were he did not state. From what can be learned here it is probable that some of them will be heard of in Salt Lake before many days have slipped by.

WILL BEGIN OPERATIONS IN BULLFROG DISTRICT

Now that more than ordinary interest in that country are getting ready in that country are getting ready in the chowing. The Salt Lake-Bull erty in that country are getting ready to make a showing. The Salt Lake-Bullfrog Mining & Milling company, which owns fifty-three acres of fine ground one-half mile west of the Gold Bar, is one of them. One of the strongest ledges in the district crops in the company's ground for several thousand feet and the surface prospecting and shallow development has disclosed most encouraging values. At one place assays have ranged from \$1.20 on the surface to \$22 at a depth of barely twenty-five feet.

Now that the camp is moving, now that railroad connection has been had with the district, the management is preparing to get right down to work and prove the ground up Henry Newell is president of the company; George Morgan is vice president, and W. M. Rash, secretary and treasurer. The other directors are J. C. Lynch, M. Fitzpatrick and J. J. Meycrs.

MORE LITIGATION OVER SNOWFLAKE

Another chaper is about to be added to the long-drawn-out litigation over the Snowflake property, at Fay, Nev. A suit has been filed within the last ten days at Pioche, by F. R. McNamee, administrator of the estate of Robert C. Lund, against Richard M. Johnson, claiming a one-sixth interest in the Snowflake group. Mr. McNamee alleges that in 1902 Johnson and Robert C. Lund were co-owners in the Comstock group, which covered nearly the same ground as the Snowflake, Lund owning one-sixth, and that in December of that year, while Johnston held a power of attorney from Lund to handle his interest, he failed to do the annual assessment work for the year and in January, 1903, relocated the ground in his own name, leaving Lund out. Afterwards the property was located as the Snowflake, and in a suit that followed Johnson was decreed a one-third interest. This decree has recently been entered up, and close upon that act Mr. McNamee asks the court to declare Johnson a trustee for Robert Lund for the interests mentioned, and that they recover the same. Another chaper is about to be added to

UTAH COPPER'S INCREASE OF CAPITAL STOCK

The following message was received from New York over the Pollock private from New York over the Pollock private wires yesterday:
"In relation to the proposed issue of 60,000 shares of new capital stock of the Utah Copper company and the sale of the same to stockholders at \$25 per share, the stockholders' meeting to authorize such increase will be held on Feb. 19, books to close Feb. 15 and reopen Feb. 20. The rights of stockholders to subscribe for this new stock will expire about March 1. It is reported that Utah Copper will shortly be listed on the New York stock exchange."

DOINGS OF UNLISTED STOCKS ON EXCHANGE

Newhouse was in active demand on the curb yesterday and several hundreds of shares changed hands at \$19.12½. This was a little higher than the prices made, or at least reported, from Boston and New York, but purchasers were not inclined to quibble over a few cents a share, realizing that the way to get in was to get in. Copper Glance was unusually quiet at 28c, while the small amount of trading done in Bingham Standard was at \$1.20 to \$1.23½. Western Pacific sold at 22c and Bingham Central at \$1.75. Keystone was offered at 18c, Hannapah at 45c and Cedar Extension at 21c. Ohio Copper was \$5.0005.50; Western Nevada, \$1.47½.31.55; Ohio-Kentucky, \$1.6004.82½, and Mason Valley at \$2.50 asked, while bids and offers on other stocks of still less activity were bandied about without sales being recorded. Newhouse was in active demand on th

HIGGINSON LEASE IS RICH.

Part of Jumbo Extension in Which

Local Men Are Interested. According to the word sent out from Goldfield on Saturday last the Higginson lease on the Jumbo Extension, in which quite a number of Salt Lake operators are interested, is turning out big. Last Friday a blind ledge was cut in the shaft that gave returns bordering on the sensational, and the next day the statement went forth that a mine had been made, as follows:

"Another big shipper has been added to the list of Goldfield world beaters. A blind vein has been encountered in the Higginson lease on the Jumbo Extension which has set the entire district aflame with excitement. According to the word sent out

After Coal for De Lamar.

Goldfield Daisy
Tramp Consolldated
Manhattan Combination

Yankee Girl

Bonanza

F. R. McNamee, company counsel, came in from De Lamar yesterday with Manager F. C. Wardner of the Bamberger-De Lamar mines, to make an effort to secure coal for the company's power plant below Caliente. They have a supply that will only last a couple of days and unless they are successful the big plant, at De Lamar will have to close down. De Lamar will have to close down.

Farmington Mining Company.

The Tichimingo Mining & Development company, with a capital stock of \$400,000 in dollar shares, of which \$180,000 is treasury stock, has filed articles of incorporation with the secretary of state. The head office is located at Farmington. The officers are: President, L. P. Derby; vice president, O. C. Dixon; secretary-treasurer, E. L. Land, and manager, W. J. Huselton. These, with Fred Cooms, are the directors. The company owns mining claims in Davis county. BROZERS,

dollar shares, with \$150,000 in treasury stock. The first officers are: President, Charles Ball of Chicago; vice president, J. H. Edgerly, Morgan; secretary-treasurer, A. E. Howes, Morgan; directors, William Blair, Chicago; O. W. French and Frank Croft, Coalville, and O. B. Anderson, Morgan. The company owns a number of claims in the Morgan mining district near Tunnel Hollow.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Erie Co., amounted to \$112,000, as follows: Sillist ver, lead, gold and copper ores, \$32,000; base bullion, \$80,000.

Metal Markets.

Silver, 6814c per ounce. Copper (casting), 24%c per pound. Lead, \$6 per 100 pounds.

Mining Notes.

Alice was quoted in New York yester-day at \$5.87½. Horn Silver at \$1.70 and Preferred Ontario at \$6.50. Eight carloads of ore from Utah properties and one from Nevada were released from the Pioneer sampler yes-

John H. McChrystal left for New York yesterday on mining business. A guess Miss. Pac. would make it read in connection with his Deep Creek enterprises.

Preferred

The Utah Mine company has just disposed of another carload of ore that enriched the treasury to the extent of over \$5,500. Another carload is being hauled from the mine to the loading station and it is expected to reach the market next week. The regular monthly dividend will be declared on the 14th.

Mentage Durseldorf the well known at the page Mail

Morris Dusseldorf, the well-known mining man who has been confined at the Keogh-Hammond hospital for the past six weeks, and who underwent a most serious stomach operation during his stay there, is out on the street again. He says he feels better than he has done in thirty years, though still somewhat weak.

George F. Cunp general managers of the past of the past six weeks, and who underwent a most stay there, is out on the street again. He says he feels better than he has done in thirty years, though still somewhat weak.

thirty years, though still somewhat weak.

George E. Gunn, general manager of the Mason Valley Copper Mines company, returned from Los Angeles Wednesday morning and pulled out for Ely in the afternoon. After looking after business matters there for a day or two he will go on to Yerington to size up conditions at the properties of the Mason Valley company.

Engineer Morris M. Johnson of the Newhouse staff is now finishing up his report on the Nipissing property and with that off his hands, he expects to leave for Yerington. Nev., to look after matters at the Western Nevada company's properties. Building material is now being delivered at camp and he will shortly see to the placing of a fine compressor plant.

Richard Stingley, formerly purchasing agent for the Boston Consolidated and Newhouse mines, but now a flourishing merchant in the new smelter and mill town of Garfield, was in the city yesterday. He states that sunshine and wind has combined to dry up all the roads west of town and that everybody is hustling at Garfield with spring improvements. Vir. Car. Chem. 600 Preferred

Superintendent William Ball was in from the Lower Mammoth vesterday. He says that good headway is being made in the installation of the new hoisting plants but he figures that the best part of the present month will be consumed in gating things under way again. Work in the mine has now been entirely suspended pending the setting of the machinery on the tunnel and 1,200-foot levels.

on the tunnel and 1.200-foot levels.

Six carloads of ore from Nevada and thirteen from Utah camps were released from the Taylor & Brunton samples yesterday morning. Manager T. R. Woodbridge, who went to Nevada several weeks ago and who got into such stormy weather that he caught cold and had a battle with nature to keep pneumonia from getting the best of him, returned from Los Angeles yesterday morning feeling first rate again.

Another carload of rich ore from the

feeling first rate again.

Another carload of rich ore from the Nevada Hills company's bonanza property at Fairview has reached the market and advices from camp are to the effect that still another car is practically ready to send over the Southern Pacific from the loading station. Bad roads is playing havoc with hauling and it is likely to be a week or two before the accumulated ores at the mine can be moved as rapidly as the management would like. James Farrell, the company's "road expert." left for camp yesterday and Jupiter Pluvius and all the other storm gods will have to move on when he gets there.
